

BiomeLords

Lord Handbook

Companion reference for the BiomeLords Valheim mod.
Mod version 0.6.0 · Updated 2026-08-03

Each of seven biomes has a Lord — a boss-tier variant built from vanilla assets. Hunt the right creatures to earn the right to summon one, defeat it to claim its Forsaken Power, and mount its trophy on a Lord's Pedestal to call upon its blessing.

Design overview

Lords are summoned with a **Lord's Horn** consumed at night in the matching biome, after enough qualifying creatures of that biome have been killed. On a successful summon, the world event for that Lord fires (forced weather + boss music) and the Lord is spawned 8 m ahead of the player. The horn is consumed.

Tier reference

Tier	Biome example	Base HP	Dmg mult
1	Meadows	500	×1.50
2	Black Forest	2500	×1.75
3	Swamp	5000	×2.00
4	Mountain	7500	×2.50
5	Plains	10000	×3.00
6	Mistlands	12500	×3.50
7	Ashlands	25000	×4.00

Scaling formula at spawn

HP tier = $\max(\text{lordTier}, \text{playerHighestBossTier})$

Damage tier = $\max(\text{lordTier}, \min(\text{playerHighestBossTier}, \text{lordTier} + 1))$

Final damage mult = $\text{TierTable}[\text{dmgTier}] \times \text{LordConfig.DamageMultiplier} \times \text{LordIntrinsic}$

Push force = $\text{codedPush} \times 1.5$ (always, `LordDamageBoostPatch`)

HP scales fully with player progression so veterans get a meaty fight from early-biome Lords. Damage is capped at lordTier + 1 so even Yagluth-tier players can't be one-shot by a Meadows Lord.

Abilities (detail)

Ability	Cooldown	Trigger	Effect
Tidal Shot	12 s	Facing player (60° arc); range 5–18 m	Freezes in place 1 s, then fires blue water blob projectile (sparkle trail). Detonates on arrival: 1.5 m splash, 18 blunt, blockable + dodgeable. Fires 3 projectiles (center ± 20°) when frenzied. †Damage subject to Lord profile patch at runtime.
Tide Shield	2.5 s window / 12 s inter-CD	HP ≤ 50% + player attacking within 6 m	Reactive block: activates only when Player.InAttack() is detected. Cancels all blockable hits for 2.5 s. Ward flash (fx_guardstone_activate) on activation; fx_GoblinShieldHit on each blocked hit.
Tide Caller	45 s	Cap-gated (max 3 Necks within 20 m)	Spawns 2 Necks 3 m flanking with vfx_spawn
Frenzy	One-shot	HP ≤ 30%	+50% speed, brighter red tint, periodic spark pulse. Tidal Shot fires 3 projectiles (center + ± 20° spread) instead of 1.

Trophy

TrophyNeckLord (crimson tint of TrophyNeck)

Blessing (Lord's Pedestal)

Fisher's Boon (SE_NeckLordSpirit)

Fishing casts have a 50% chance to spare bait (FisherBoonBaitSaveChance); landed fish have a 25% chance to drop a second fish (FisherBoonBonusFishChance).

Forsaken Power (F key)

Tide's Grace (GP_TidesGrace)

The Neck Lord's mastery of water flows through you. While swimming, stamina is restored instead of drained. While Wet, melee attacks deal +50% damage — and the Wet status can no longer harm you.

Notes

- m_avoidFire = false — fire-avoidance behaviour removed from the vanilla Neck clone.
- †Tidal Shot damage: HitData.SetAttacker points to the Neck Lord, so hits are routed through LordDamageBoostPatch and overwritten with the Lord's resolved attack profile (20 pierce at native tier, converging with progression).

Abilities (detail)

Ability	Cooldown	Trigger	Effect
Sapling Summon	60 s	Cap-gated (max 3 Greydwarves within 12 m)	Spawns 2 Greydwarves 3.5 m flanking (cap-clamped)
Root Spawn	40 s	Player within 4–25 m	0.6 s telegraph → erupts vanilla TentaRoot under player; 30 s safety despawn. In Frenzy: 3 roots in a ring (5 m radius, ±18° jitter) around the player.
Healing Resonance	15 s	Not frenzied; any Greydwarf within 12 m	Genuine shaman heal-cast animation, then heals self + all Greydwarves within 12 m for 60 HP each (skips full-HP targets). VFX replayed in code — vanilla heal item is stripped at build time to prevent its AoE from firing through LordDamageBoostPatch.
Poison Nova	One-shot	HP ≤ 50%	Burst VFX + center message, then permanently adds +25 poison to every subsequent melee hit by mutating the per-instance LordProfileRegistry entry.

Frenzy	One-shot	HP ≤ 30%	+50% speed, lime-green tint flash, Healing Resonance disabled, continuous spark aura. Root Spawn switches to the ring-of-3 surrounding pattern.

Trophy

TrophyGreydwarfShamanLord (bright-green tint of TrophyGreydwarfShaman)

Blessing (Lord's Pedestal)

Forest's Embrace ([SE_GreydwarfLordSpirit](#))

Two gifts in one. Quick Sprout: planted crops within 30 m grow about 30% faster (QuickSproutGrowthPatch). Forest's Embrace: sit beside a mature tree with no monsters within 30 m to heal — the older the tree, the stronger the gift (1 HP near Beech/Birch up to 5-6 HP near Yggdrasil/Charred trees, every 3 s). After 30 s of seated rest the forest grants a Rested buff; older trees extend it further (Beech/Birch +1, Oak +2, Yggdrasil/Charred +3).

Forsaken Power (F key)

Rootward ([GP_Rootward](#))

The grove rises to your defence. On activation you are healed for 100 HP, and a grasping TentaRoot erupts on each of your closest enemies — up to 5. Fewer than 5 enemies within 40 m means fewer roots. The roots fight for you and can never harm you, retracting once their work is done.

SE = status-effect only (no direct damage). van. = vanilla-inherited value. † Plague Cloud bypasses Lord dmg mult — value is fixed.

Abilities (detail)

Ability	Cooldown	Trigger	Effect
Rotten Cleave	30 s	Player within 5 m	Lord freezes; fx_GP_Activation forsaken-power column plays for 1 s (telegraph). Then Humanoid.StartAttack fires a real sword swing — damage rides the animation hitbox (80 slash + 50 poison x mult via LordDamageBoostPatch). Slice VFX at sword tip. Applies Wounded (SE_DraugrWound) only if the swing actually reduces player HP — a dodge or full block grants no bleed. Wounded: 5 HP/s for 60 s; vfx_BloodHit each tick; re-landing refreshes duration.

Plague Cloud	One-shot	HP ≤ 60%	Spawns stationary PlagueCloud at current position (stays fixed if Lord moves). 5 m radius, 25 s, 5 poison/sec. †Bypasses Lord dmg mult — value is fixed.
Undying Surge	One-shot	HP ≤ 40%	Lord freezes; healing VFX ring (vfx_HealthUpgrade + vfx_Potion_health_medium x6). After 1.5 s, instantly kills every non-player creature within 60 m. Kill hits are attacker-null so LordDamageBoostPatch is bypassed — resistances cannot negate them. Heals 500 HP per creature killed. Fails (0 heal + failure message) if no creatures are in range. Blocks Rotten Cleave and Summon Draugr while active.
Summon Draugr	60 s	Cap-gated (max 3 Draugr within 12 m)	Spawns up to 2 vanilla Draugr (cap-clamped). Suppressed during Undying Surge.
Wet Touch	2 s	In Death Throes + player within 3 m	Applies vanilla Wet SE
Death Throes	One-shot	HP ≤ 25%	Speed x1.5. Aura Light shifts to blood-red at higher intensity. Activation burst (blob VFX + corpse explosion + red lightning ring of 8). Continuous red-lightning pulse every 0.6 s. Wet Touch activates: applies Wet to nearby player every 2 s.

Blessing (Lord's Pedestal)

Pack Whisperer ([SE_FenringLordSpirit](#))

Purely defensive/breeding gift. Tamed wolves within 30 m take −50% damage, and tamed creatures breed/tame 2× faster while the bearer is nearby. (Does NOT grant +damage dealt by wolves — that buff belongs to Howl of the Pack below.)

Forsaken Power (F key)

Howl of the Pack ([GP_HowlOfThePack](#))

On activation: every tamed creature within 30 m is fully healed and marked with the pack's ember light. A ghostly violet Phantom Wolf (non-interactable, follows the player) fights at your side for 60 s. Any tamed Wolf within 30 m deals +100% damage for 10 minutes. Synergy with Pack Whisperer: if the blessing is active when F is pressed, tamed wolves take −85% damage (instead of −50%), the Phantom Wolf endures for 2 minutes and ignores all incoming damage, and Blood Magic skill scales the pack (50+ summons 2 wolves, 100 summons 3).

Featherweight (SE_FallerValkyrieLordSpirit)

The Fallen Valkyrie Lord's gift. Her wings bear your burdens: carry up to 1000 weight with no encumbrance penalty (walk, run and recover stamina freely until the cap), and gain +2 inventory rows. Switching blessings spills the extra rows into a crate at your feet.

Forsaken Power (F key)

Valkyrie's Rally (GP_ValkyrieAscension)

The fallen Valkyrie answers your call to arms. Every player within 20 m — you and your kin — is restored in an instant: Health, Stamina and Eitr filled to the brim; Adrenaline maxed if a trinket is equipped; a max-level shield bubble, as from the Staff of Protection; and a 20-minute Rested buff.

Notes

- Wind Gust and Dive Bomb are push-only (no m_damage set on the HitData) — pure positioning/knockback tools. Soul Harvest is the fight's only true damage source, and it heals the Lord, not just drains the player.
- Valkyrie's Rally is a one-shot group restore burst, not a self-buff: the SE itself carries no stat mods and lapses after a 4 s InstantWindow — ValkyrieRallyService broadcasts a routed RPC so every nearby client restores itself (multiplayer-safe).
- Soul Harvest uses arm/disarm hysteresis (arms below 30% HP, disarms above 50% HP) so it can't immediately re-trigger the instant it ticks the Lord back over the line.
